Bachelor's degree   Oct 2021 - Present
      Information Technology Engineering
      Skills: ASP.NET · Web Development · Responsive Web Design · Databases · Database Design · C# · Object-
Oriented Programming (OOP) · Data Structures · C++

PROJECTS

Screen Scene: A Dynamic Movie Website   Jun 2024 - Jul 2024
Technologies Used: Django, Tailwind CSS, JavaScript, TMDB API   [Visit the Website](#)
- Created a movie website featuring interactive carousels and a user authentication system.
- Implemented robust search functionality and data optimization with local storage.
- Provided a sleek and user-friendly interface for browsing movies.

AskVid: Get Answers from Videos or Audios   Apr 2024 - May 2024
Technologies Used: Django, Python, AssemblyAI, Google Gemini API   [Visit the Website](#)
- Built a web app for interacting with video/audio content.
- Integrated AI for summarization, transcription, and question-answering.
- Designed an intuitive chat-like interface for user interaction.

E-Commerce Backend Development with Django   Mar 2024 - Apr 2024
Technologies Used: Django, Python, Bootstrap, Colorlib Template   [Visit the Website](#)
- Implemented a cart and order management system for an e-commerce site.
- Developed features for secure user authentication and a coupon system.
- Integrated an autocomplete-enabled search bar for enhanced user experience.

Online Book Inventory System   Mar 2024 - Apr 2024
Technologies Used: ASP.NET, C#, Microsoft SQL Server, Bootstrap, jQuery   [Visit the Website](#)
- Developed a responsive online book inventory system with user authentication.
- Implemented CRUD operations for managing book data.
- Designed a user-friendly interface with a search bar for easy navigation.

Dynamic Website and Control Panel for Sama Media   Mar 2024 - Apr 2024
Technologies Used: PHP, MySQL, HTML, JavaScript, CSS   [Visit the Website](#)
- Led the design and development of a dynamic website for a graphic design company.
- Created a responsive layout showcasing the company's portfolio and team.
- Built a control panel for efficient content management.

CERTIFICATIONS

University of Michigan | Coursera
Django for Everybody Specialization   Issued Jan 2024
      Courses included: Web Application Technologies and Django, Building Web Applications in Django, Django Features
      and Libraries, Using JavaScript and JSON in Django

Python for Everybody   Issued Sep 2023
    Courses included: Programming for Everybody, Python Data Structures, Using Python to Access Web Data, Using Databases with Python

Web Applications for Everybody   Issued Aug 2023
    Courses included: Building Web Applications in PHP, Introduction to Structured Query Language, Building Database Applications in PHP, JavaScript, jQuery, and JSON

Web Design for Everyone   Issued Jul 2023
    Courses included: Introduction to HTML5, Introduction to CSS3, Interactivity with JavaScript, Advanced Styling with Responsive Design

Meta | Coursera
Front-End Developer Specialization   Issued Jul 2024
    Courses included: Introduction to Front-End Development, Programming with JavaScript, Version Control, HTML and CSS in depth, React Basics, Advanced React, Principles of UX/UI Design, Front-End Developer Capstone

Back-End Developer Specialization   Jul 2024 - Present
    Courses included: Introduction to Back-End Development, Programming in Python

TECHNICAL SKILLS

Programming Languages: Python, C#, JavaScript, PHP, SQL, C++
Web Development:
    Front-End: React.js, HTML, CSS, JavaScript, jQuery, jQuery UI, JSON, AJAX, Bootstrap, Tailwind CSS
    Back-End: Django, Node.js, ASP.NET, PHP, Python, Web Services API, API Development
Databases: SQL Server, MySQL, SQLite, Database Design
Other Tools: GitHub, XAMPP, PhpMyAdmin, Figma, UI/UX principles

ADDITIONAL

Languages: English (Advance – C1), Arabic (Native)
